DEDICATION

We, the Senior Class of 1940, wish to dedicate this annual to our annual sponsor, Miss Elaine Esarey. It is such an endeavor of us to pay tribute to the one who ably directed and supervised our annual that it might be a success.

The Senior Class of 1939 set a precedent by making Larwill High School's first annual. It is our duty and privilege to keep this custom alive by issuing the second.

We hope that our friends, classmates, parents, and teachers find this annual to be of equal quality to that of last year's. We are proud of it, and hope that it enlightens every home of the community.

We again want to express our thanks by this dedication to Miss Esarey by whose guidance this annual was made.

HISTORY OF THE CLASS OF '40

In the fall of '36 the voices of 30 new Freshmen echoed through the halls of Larwill High School. 8 came from Troy and 22 from Larwill. During the first semester Edward Yarman left us and went to Pierceton, and our first semester of high school ended with 29. During the second semester we were joined by Dorothy Gay from Columbia City and Max Krider from Churubusco. Phyllis Phend moved to Elkhart and our freshman year ended with 30 members.

When we entered our sophomore year in the fall of '37, we were joined by eight new members. They were Merle Davenport and Dayne Wilkinson from Etna; Virginia Gardner from Chicago; Glenna Hoover from Elmhurst; Herman Stuersel from Alabama; Mary Moore from Wakarusa; and Sylvia Farris from Columbia City. Those who left us during the summer were Raymond Loe who moved to South Whitley, Dorothy Gay, Pauline Gebert, **Eloise Coyle**, and Von Keith Hart. During the year Gilbert Schmittou and Charles Robinson withdrew from school, and Phyllis Phend, who was getting homesick for Larwill, and June Hawthorne, who was always dreaming of her previous school, South Side, joined us. That made our enrollment 33 at the end of our sophomore year.

28 Juniors entered school in the fall of '38. Those who had left were Cletus Kistler who went to 'Busco, Sylvia Farris who went to Columbia City, Willis Burnworth who due to illness decided to wait a year before coming back to school, June Hawthorne, and Dean Williamson. During the year Don Beard withdrew; Maxine Beckman, who came from Texas, joined us but returned to Texas before the end of the year. Marjorie Hurd came from Jefferson Center to join us, and toward the end of the year Willodean Norris left us. The year thus ended with 26 members.

We entered our senior year with 30. Mary Ellen Groves due to illness that prevented her from graduating in '39 entered our class. Adrian Beers came from Columbia City, and Jack Estlick came from Peterboro, Ontario, Canada, and Sylvia Farris came back to us from Columbia City. Betty Faurote and Sylvia Farris withdrew from school at the beginning of the year, and Merle Davenport decided to leave us and travel. That left us with our present 27 members.

There are six members of our class who have attended all of their twelve years of school at Larwill. They are Bonnel Helfrich, William Helfrich, Jo Ann Miller, Edson Schuman, Dean Norris, and Wanda Lepley.

PROPHECY

It was coming winter in 1942. The weather bureau had predicted it to be a long cold winter, so I thought I would take a trip to Florida and try to find a job there. I packed my things and went to the station to get on the Greyhound. I stepped up into the Greyhound and was I surprised when I saw Glen Johnson in the drivers seat; I knew that he had always wanted to do something like that. I went back to find a seat and who do you suppose I met? It was Mary Ellen Groves. She told me she had just accepted a job as a dancer in a night club owned by Gerald Orcutt, in Indianapolis. Gerald running a night club! No wonder he wanted to take Home Economics when he was a Senior. We arrived in Indianapolis about noon, so I thought I might as well accompany Mary Ellen to the night club. We hunted up Gerald to tell him of our arrival and then sat down for a bite to eat. Who do you suppose the waitress was?--Marilynne Menzie! Boy! it was nice seeing her.

I decided to go over to the State fair, so I hailed a taxi, and of all the cab drivers in Indianapolis, it turned out to be none other than Jack Hively saying, "Where to, Boss?" He then informed me that Edson was there with his prize hereford, so I thought I might as well hunt him up. When I arrived I went to the cattle building and it wasn't long before I found Edson sitting on a bale of straw writing an editorial on "How I raised a prize Hereford." I sat down to talk to him for awhile when along came a big truck with a sign on the side, "Smith Contractor." Immediately I thought of Keith Smith, and Edson said that I was right. Keith had a contract for building some new buildings at the State fair grounds. I then talked to Keith awhile and then decided that I would return to the circle and try to find the hospital because I knew Jo Ann Miller and Helen Tuttle were going to take up nurses training.

I had just got onto the road and started towards town when along came an old Model-A. It came to a stop and Howard Reid said, "Hop in if you're going to town." He then informed me that he was a dare-devil out at the speedway. That time he rolled over back in Larwill and didn't get hurt gave him the idea of being a dare-devil. He said that he drove his Model-A in the races and everytime he got it up to 120 it had the most peculiar rattle. With Howard giving me all this inside information on racing it wasn't long until he had me at my destination. I thanked him for the ride and started to the hospital, and as I went to enter, the door opened and out came Helen Tuttle. We stood and talked for a while and as she was going over to the chemical building to see if Jack Estlick had made any progress on his new cure for seven year itch, I went along. I asked how far it was over to the chemical building, and she said that it was about 10 blocks, so I hailed a taxi. (No, I don't know the driver.) On the way over I asked about Jo Ann Miller and Helen told me that Jo Ann had had good enough intentions of being a nurse, but when that man came along she couldn't resist. I asked what his business was and she said that he was an aviator, and the other day a mechanic caught him putting shovels and picks in the airplane, but Jo Ann came to the rescue and explained that he had heard someone say that "There's a Gold Mine In the Sky", and he was only trying to find. We found Jack writing the formula for the cure of seven year itch. Helen asked how he was coming and he replied, "I've got it so that it only itches for 3½ years and that's only half as bad as it was. I decided that it was about time for me to be leaving; I was already beginning to itch. I bade them good-bye and went outside and looked first one way and then the other trying to decide which way to get out of Indianapolis: as I stood there a car pulled up to the curb and the driver got out and started toward the chemical building. Yes, it was Adrian Beers, and as we talked he asked what my plans were and he told me to wait a second until he got some medicine so that I could go with him on a call. If you haven't already guessed, I'll tell you--he's a veterinarian. I found that he was on his way to Dean Norris' dairy farm. When we arrived I decided to have a look around: I discovered that he had taken a course at Purdue and had worked out a plan by which he could get chocolate milk fresh from the cows. The way in which he did this was by separating his cows, the ones he wanted to give chocolate milk he had taken care of entirely by negroes, and being accustomed to this dark chocolate color their milk became this way.

I began to think that I would never get to Florida. Everywhere I turned I saw someone I knew at Larwill. (It's a small world, ain't it?) This time I started out on foot because I was quite a distance from any town. I walked but a short distance when a traveling salesman picked me up. It was Malcolm Trump, and he was selling glue for The No-Stick Glue Corporation; of course, I would have liked to bought some, but I didn't happen to need any at the time. I was pretty lucky about getting this ride because Malcolm was headed straight for Louisville, Kentucky, so on arriving, I thanked him and started out in search of a railroad station. As I was going along the street I noticed a sigh saying "Buy a load of Blue Grass Coal! In recent laboratory tests it burned 25% longer than any other brand---Bonnel Helfrich, salesman." While waiting for my train I decided to look up Bonnel, since I hadn't seen him for two years. On arriving, to my surprise, I saw Virginia Gardner acting as his secretary. As it was nearing my train time I had to be on my way. Once more I thought I was on my way to Florida when who should I meet but Phyllis Phend. I asked how she happened to be in Kentucky and she explained that she was a school teacher and, well, I'm not supposed to tell this, but she said that the reason she taught school down here is because no one is dumb enough to believe her, except these hillbillies. I thought maybe I'd better be going before she tried to teach me. I finally got to the station and who do you suppose I saw? Your right--it was the clerk. I bought my ticket and went outside to wait for the train; I didn't wait long until I heard something coming. No, it wasn't the train, but it was Dayne Wilkinson driving his new International truck. He had come to meet the train, as his Mother-in-law was coming for a visit which Dayne was hoping wouldn't last long. At last the train finally came and I was aboard and in my place: I was hoping that I'd see someone that I know but the hope was all in vain. Believe it or not I really arrived in Florida and while wondering about town I met Max Krider going home to supper, and on inquiring I found that he was now a radio announcer for station O-K. Yes, he invited me to supper and promised to take me to the beach afterward. We had a swell supper, thanks to the former Marjorie Hurd.

While wondering around the beach we came upon a beauty contest and who do you suppose was in it? None other than Martha Marrs! The contest lasted so long that we didn't have time to stay and see who won. I guess they were debating whether to give it to Martha or another girl. I stayed at Max's house that night and the next day I went down to the winter training grounds of the New York Wild Cats and of course William Helfrich was in training. After I watched them practice for a day, they put me in mind of wild kittens that didn't have their eyes open. The next day I went to see Herman Steursel. I knew that he was in the Coast Guard.

I was beginning to think that I had had enough of Florida and I was also getting homesick, so I took an airplane back to Larwill. We were well on our way when a storm came up. They found it necessary to use the radio to guide them, but all that they could get was Lorraine Groves singing and when they couldn't get that they got Wanda Lepley conducting a quiz on how airplanes are guided in a storm. We finally reached Larwill airport and decided that it would be good to stretch my legs so I started to walk the rest of the way home, and as I passed the hotel who do you suppose I saw? It was none other than Glenna Hoover still playing nursemaid to Teddy Easterday. I finally reached home and began to count up those I had seen and I found that I had seen all my old classmates on my trip.

CLASS POEM

When I beyond these portals go
Into the cold cruel world,
I'll think of the colors of L.H.S.
As a flag of love unfurled.

These colors of dear old L.H.S.
Hold memories of the rarest kind,
Memories of days happiest
That are often brought to mind.

And in those days of my schoolhood
My friendship held the best.
And, my friends, lest we forget,
Remember dear old L.H.S.

CLASS SONG

(South of the Border)

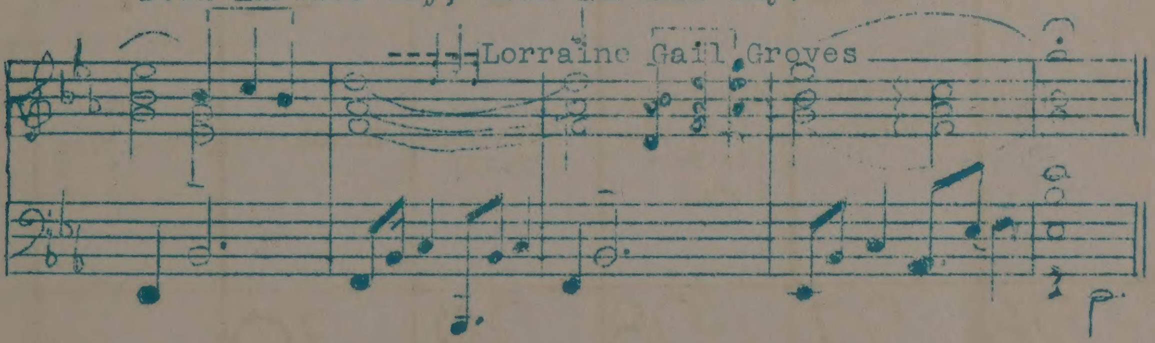
In Richland Township, down Larwill way,
  That's where we went to school
To learn to live they say.
  Now as we graduate, our thoughts ever stray
To lessons we learned down Larwill way.

We were all pictures of health and youth,
  And just for four short years
We bravely tried to learn the truth.
  School life was so pleasant and we were so gay
In Richland Township, down Larwill way.

And we sighed as we wearied of studies,
  Never dreaming they were inspiring,
But we knew that we were preparing
  For a day that was sure to come.

From Larwill High School we must say adieu,
  And in a world so real,
We will appeal our aims in view,
  For our teachers taught us that we couldn't stay
Always the same place, down Larwill way.

Down Larwill way, down Larwill way,
Down Larwill way, down Larwill way.



Lorraine Gail Groves

The Senior Class of 1940 has chosen for its motto "B#, B♮, but never B♭."

We are hoping to carry this motto with us throughout our lives. We wish to be alert to opportunities as they're presented to us. We want our response to such opportunities to be given quickly with understanding and appreciation. We desire to be natural in our actions, allowing our own characteristics to guide and direct us. We shall never pretend to be what we are not. Lastly we are never going to be flat---we may be down, but never out.

-----Jo Ann Miller

COLORS —

We, the Senior Class, of 1940 have chosen the colors of blue and gold for our class colors. Blue stands for bravery and gold symbolizes high standards of living.

In the future we will strive to keep up our high standards of living when the way seems difficult, and maintain our bravery as we tread down life's rugged highway.

Parents, teachers, classmates, and friends, we of the graduating class of 1940 are about to depart from our school life into the world; we wish to express our sentiments on such departure.

We are not afraid----on every hand we are told and reminded of the cruelty, coldness, and fear of this world of ours. We have every reason to face such a world bravely and courageously, for haven't we been guided, taught, encouraged, and comforted by you? The least we can do is express to you our gratitude and thanks.

To you, the parents, we owe our gratitude for your helping us to acquire an education, that coveted asset provided by a free land. To you, the teachers, we are indebted for our position--that of having acquired knowledge and intellect. Classmates, it has been so much fun being with you these four years----we will miss you more than you'll miss us. And to friends, we want to thank you for your interest in the school activities and programs.

Now as we close our school activities, I want to express my desire that we all measure up to your expectations and not a one of us disappoints you for having been with us in the years of grand and glorious school life.

Parents, Friends, and Teachers: We, the class of 1940, extend a most cordial welcome.

We have reached the end of our high school career and have come to the time we must part from our classmates and go out into the world to seek our individual careers, some to seek further education, others to go elsewhere. But wherever we go or whatever we do, some of the scenes and happenings that occurred while at Larwill High will re-echo in our minds.

Many times we have tried the patience of you, our parents, and teachers, but you unfailingly stood by us and helped us in every way you could. We are grateful to you for it.

Let us say again that we, the class of 1940, bid you welcome.

THE FLOWER

Our class has chosen the red rose as the class flower because it is a symbol of loveliness and fragrance borne by a genius of flowers. No flower brings to the mind more varied and beautiful pictures than the rose. The oldest cultivated species comes from Persia and Northern India.

In English history, red roses were the respective emblems of the rival houses of Lancaster and York, and also is the National Emblem of the English people.

Man has held the rose above all other flowers and even so in the United States where they are raised in greenhouses. The fragrant American Beauty has red rich petals and are soft and smooth like velvet.

JUNIORS

Junior Class History

We, the Junior Class of '40, consist of exactly 52 members. We have the largest class in the high school and are proud of the fact. We have an eleven point lead on the second largest class here at Larwill.

In our freshman year we started with 49 members and ended our year with 49 members. Robert Blanchard, Maxine and Paul Moore withdrew and went to Etna Township. Juanita Webber withdrew the latter part of the year. The four people that took their places were Eugene Hull from Washington Township, Naomi Studebaker of Sidney, and Betty Landis of Pierceton.

At the beginning of our sophomore year James Groves withdrew from our class and Jack Jackson left us the latter part of the year. Arissa Hodges of Pendleton joined in our march for intelligence; she came here in March, leaving us a total of 46.

We started our junior year with some additions and changes. Hazel and Betty Barney left during the summer and Willis Burnworth, Dean Williamson, Don Beard and James Groves rejoined us after a year's absence. Edna Mettler joined us in September, Omar Loe entered in October, and Jossie Starbuck and Eunice Ellis came to us in March. These additions make us a total of 52.
